

UNIQ®FOAM 128 S

Solution of non-silicone defoamer

UNIQ®FOAM 128 S is a strong defoamer suitable for all solvent borne and solvent free coating systems. It prevents the formation of foam during the manufacturing and filling. The additive has an immediate foam-destroying effect and does not have influence on the interlayer & re-coating adhesion. The additive is helpful for improving the leveling. Due to the high defoaming efficiency please check the transparency in high gloss clear system.

Special Features

- Solvent-borne applications
- Strong defoaming effect
- does not interfere interlayer & re-coating adhesion
- Silicone-free
- Heat stable
- Improve leveling

Application

Architectural coatings	■
Wood and furniture coatings	■
Automotive and refinish coatings	■
Can/coil coatings	■
Industrial coatings	■

highly recommended ■

recommended □

Product Specification

Density 20°C
Appearance

0.81 g/cm³
Colorless clear liquid

Addition levels

- Based on total formulation: 0.1 – 1.0 %
Added in grinding stage or under high shear force mixing stage.

Packaging

- 20 kg
- 150 kg

Shelf life

UNIQ®FOAM 128 S should be stored in a cool dry place. When kept in an original unopened container, it will keep up to 5 years from the date of manufacturing.
